Graph the Following Inequalities on the Number Lines... Remember, graph in the same direction that the inequality points, and color in the circle only if there is a line under the inequality.

1. \( x < 2 \)

2. \( x > -4 \)

3. \( x = 0 \)

4. \( x = -2 \)

5. \( 1 < x \)

6. \( -2 > x \)

7. \( x = -2 \)
8. $x < 2$

9. $x > -5$

10. $x < 0$

11. $2 = x$

12. $3 < x$

13. $x > -1$

14. $x = -3$

15. $-7 < x$
