## The Undefined Terms in Geometry

1) Define the term "point" as best you can. I imagine that you were trying to explain it to a younger brother or sister

a) If you think you have come up with a better definition later in the video, come back and write it here.

2) Define the term "line segment" as best you can.

a) If you think you have come up with a better definition later in the video, come back and write it here.

3) Did you ever find the end of your line? Define the term "line" as best you can.

a) If you think you have come up with a better definition later in the video, come back and write it here.

4) What is the difference between a line and a line segment?

5) Define the term "ray" as best you can.

6) Compare and contrast the straight edge tools "line," "line segment," and "ray."

7) Define the term "plane" as best you can.
